

**WE ARE LOOKING FOR VOLUNTEERS AND
INTERNS TO SUPPORT US WITH**

- Teaching as full time or assisting teacher in: English, Math and other subjects, as well as creative classes
- Office Support, Communication, Fundraising and Friendraising, and the online presentation of Good Hope (Website, Facebook, Instagram)

**Work
With Us**

On-site in Moshi
or from your
home desk

WHAT YOU CAN EXPECT

- A meaningful job in a grassroots organization with people who are most passionate about improving the lives of our most marginalized children. You will also be given enough space to realize your own creative ideas.
- You will receive English-speaking supervision through our trained staff.
- We help you organize your whole stay from preparation via Skype or email, airport pickup, work permit, to accomodation with a local family or with volunteers from other NGO's.

Holistic Support

Good Hope's mission is to provide education, skills, knowledge, and emotional support to disadvantaged youth in the community and enable them to find formal employment.

Our Programs

To support disadvantaged youth

- Our most visible program is our **Stepping Stone Program** for primary school graduates who had no opportunity to join secondary school. Students usually stay two years at Good Hope and repeat content they missed out on during primary school education.
- Our **Student Sponsorship Program** extends the Stepping Stone Program and is designed for students who attended our on-site program. We are looking for private sponsors and provide scholarships for vocational training, secondary school, up to university education.
- Our **Afternoon Tuition Program** is open to all primary school children in the neighborhood.
- Our **Annual Secondary School Preparation Short Course** is open to all primary school graduates who wish to prepare for their entry in secondary school.
- We conduct baseline research to create a program to support teenage mothers who have been banned from school: our **Mabinti Project**.

Our Impact

On children and the community from 2011 to 2020

- More than 200 students have received free on-site schooling for one year or more, and 88 students have participated in the annual secondary school preparation short course
- 68 students have been awarded with a school or training scholarship, up to university level
- 42 Students have finished their education with a scholarship or sponsorship via Good Hope, and 80% of the graduates found employment immediately after graduating
- 35% of the students in our main programs are orphans, 55% live with only one parent

Hadhija Ramadhani, 23 years old joined Good Hope in 2011

Our Objectives

- We teach English with a **trained national team** that gets the students started with basic skills and grammar. **International volunteers** support and train the students in pronunciation and speaking practice
- Students' confidence is built through **creative classes** such as dancing and singing, as well as sports
- A **free daily breakfast** is provided to our students to keep them motivated and focused in class
- **Career counseling** from day one to all students in our main programs creates a vision for the students' future
- Centering the students' success, Good Hope provides **family counselling** and establishes **close contact** with their teachers
- We provide **additional tuition** to our sponsored students during holidays in order to remain in close contact with the students, offer first-hand support, and monitor their progress

“

With Good Hope's and my sponsor Jenna's help, I was the first one in my family to finish middle school. Because of my vocational training in hotel management I work now at a lodge in Moshi, and I live in beautiful housing, can provide my mother with financial support and save money for my future. Good Hope always believed in me, even when I didn't, and I am so thankful to them for giving me a chance.

”
